

Dr. D. Y. Patil Arts, Commerce & Science College, Pimpri, Pune – 18

**Department of Computer Science
2025-2026**

Notice

Date: 23/09/2025

All students of M.Sc. (CA) Semester III are notified that, as per the curriculum guidelines, a Credit Activity 2, titled **AI Mini Project Challenge** has been scheduled as part of the continuous assessment process. This activity encourages students to apply Artificial Intelligence techniques by designing and demonstrating a small-scale project. Students may use algorithms, intelligent agents, search strategies, knowledge representation, or reasoning methods to solve real-world or simulated problems.

❖ Guidelines:

- Select **any one AI-based mini project** related to the syllabus units (e.g., Game Playing with AI search, Expert System with Reasoning, Path finding with A*, or Logic-based Inference System).
- Project must include:
 - Problem definition
 - AI technique/algorithm used
 - Implementation (code/demo in Python/Java/other tools)
 - Results & analysis
 - Applications/limitations
- Maintain **uniqueness** in topics– bring out your own creative interpretation.
- Copied work will not be considered for evaluation.
- Submission should be in the form of a **report + code demonstration**

❖ Submission & Evaluation:

- Last Date of Submission: 29th & 30th September 2025
- Evaluation Criteria: Problem Understanding, Application of AI Technique, Originality, Accuracy, and Creativity
